ATTN: Eric W. Linse
Waste Management Specialist
Toxic Substances Control Division
Southern California Section

Dear Mr. Linse:

Further to your letter of March 22, 1984, our records show that we delivered 32,800 barrels of waste to Southwest Conservation Landfill in 1968: 9,000 barrels identified as "latex waste", 16,000 barrels identified as "latex", 7,700 barrels identified as "latex carbon" and 100 barrels identified as "mud and bottoms." None of the wastes were judged to be hazardous.

We do not know whether the wastes were spread on top or disced into the soil cover.

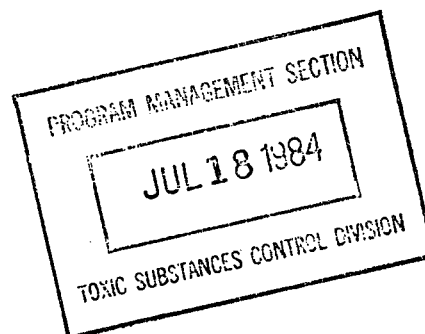

We have no records of any other deliveries to this site.

Very truly yours,

A handwritten signature in cursive script, appearing to read "R. A. O'Hare".

for R. A. O'Hare, Manager
Environmental Conservation
